OUR CONTEST.

Nearly every person has a hobby, some have two or three and along this line we plead guilty with the multitude. The Bonanza has a hobby that has been nursed since the day this paper was first issued; that is to print the news and especially local news. The reading public of Tonopah has long demanded that the happenings of this camp be recorded in a readable form, and as a testimonial that the demand is supplied, the circulation of this paper answers in the affirmative.

Furthermore we would be willing to wager that we print more local news in one day than the balance of the daily papers here print in a week. We are not stuffing our columns with fake contests intended to beguile the public, for on the contrary are serving out the happenings of the camp. Nor are we ordering carload lots of paper to meet the demand, for our credit is good at the paper houses, owing to the prompt payment of all bills, and we have standing orders for monthly shipments of paper. With regard to the great contests that are now going on, we can truly announce that the subscription of the Daily Bonanza is increasing each day without the aid of a solicitor, and before the end of the present month the million mark will be reached, and after that the parties desiring to subscribe for this paper will have to place their names on the waiting list for our mailing galleys will hold but one million names.

The effort to place subscriptions in this office will be a contest in itself, and unlike all others, the subscriber will receive real results, not promises.

DOG POISONER IS AGAIN AT LARGE

The dog poisoner is again at large and it is probable that the next few days will witness the death of a number of canines at the hands of this person. Last night poison was given to a dog in front of the Tonopah Liquor company and in a few minutes, after great suffering, the dog died. Had the crowd been able to lay hands on the person who administered the poison, it is assured that there would have been need of an ambulance and a couple of surgeons. A man who would poison a dog is one of the most contemptible curs in existence and should in no way be compared to one who would take human life. Hanging would be too good for one of this ilk, and if it were the fashion at the present to burn at the stake, we would urge that this penalty be applied to the case of a dog poisoner.

LIND IS LOOKING FOR RED TOP

BEGINS BY CROSSCUTTING EAST FROM THE LEVEL OF OLD WORKINGS.

H. B. Lind has started operations on his lease on the Booth, and will crosscut to the east from the 270-foot level of the old workings to prospect for the Red Top vein. Mr. Lind believes that it will be found near the east side line of the Booth and will push development on that theory. If Mr. Lind succeeds in opening the northerly projection of the Red Top ore, it will be a source of great gratification to the camp, as well as profit to himself.

The Booth leasing company, on the adjoining block of ground to the south and between the north end of the Red Top and the main workings of the Booth, is developing a very promising ledge that has all the characteristics of the Red Top vein, but the values are still low, although the rock gives indications of a most encouraging nature. Drifts and crosscuts are being driven to thoroughly prospect the ground, and there is plenty of room to find an ore shoot in the territory that has not yet been penetrated.

HIGH AMBITIONS OF FREE MASONS

MASONIC LODGE IN JERUSALEM TO MARK BIRTHPLACE OF GREAT ORDER.

A corporation to be known as the Jerusalem Temple association has been formed under Massachusetts laws, having for its object the building and maintenance of a Masonic temple in Jerusalem, to mark the traditional birthplace of Masonry. It is proposed to go beyond previous efforts of a like nature and insure the permanency of Masonry in Jerusalem by the erection of a temple that will stand for all time.

Its incorporators include distinguished members of the craft, among them Bishop J. W. Hamilton, D. D., LL. D., ex-Congressman L. D. Apsley, Adjutant General William H. Brigham, William E. Litchfield of the Boston chamber of commerce, Warren B. Ellis, P. C. H. P., editor of the Craftsman; George E. Whitaker, publisher of Zion's Herald and other prominent in public and society life.

The president of the association, A. B. Howe, has spent considerable time in Jerusalem, and is thoroughly conversant with local conditions. He believes there is a sufficient number of English speaking Masons in the Holy City to warrant the re-establishment of a lodge there. Visiting Masons hold meetings in Solomon's quarry, but the place is not suited to regular communications, having no seating or other conveniences and a government charge of 20 cents is made for admission.

If possible the architecture will conform to that of Solomon's temple, exclusive of the golden adornment and other decorative effects. To carry out the plan as outlined, would require at least \$100,000, which it is proposed to raise by subscriptions of not less than \$10 each from each of the blue lodges throughout the United States and in addition, to raise personal funds from private sources. Should the

total amount subscribed exceed or fall short of \$100,000 the plans will be elaborated or modified accordingly.

The first contribution received came from James B. McGregor of Newport, N. H., 108 years old, the oldest living Free Mason. Governors, bishops and men prominent in social and religious life have promised their hearty co-operation, and Mrs. Aaron Morley Wilcox, widow of one of the most prominent members of Masonry, during his life, has interested herself in the movement.

MACKAY LAUGHS AT BUSINESS SCARE

NEW YORK, Feb. 16.—Clarence H. Mackay, president of the Postal Telegraph and Commercial Cable companies, returned today from his regular inspection through the south.

"If the telegraph business is a barometer," he said, "the south has lost none of the impetus that began before and continued in a modified degree through the panic."

"Pending decisions by the supreme court may be and doubtless are important. Proposed legislation in congress may or may not be enacted, but what of it? Properties are not going to be confiscated, and the country is not going to smash."

"It may, and doubtless will, take some time to adjust legislation to meet the requirements of changing conditions, but that is no reason why business men should get scared and sit like bumps on a log until all questions are finally and definitely settled."

"Such a policy is not only nonsensical, but wrong. At least that is my opinion, and our companies are going to act accordingly. We are not to be swerved from our original determination to provide additional facilities that we foresee are going to be required."

Dr. Sophie Herzog, of Brazoria, Texas, is said to be the only woman railroad surgeon in the world. She is a native of Austria, came to this country in 1886, studied medicine and surgery and for nine years after graduation practiced medicine in New York. Soon after moving to Texas her work as a surgeon attracted the attention of the St. Louis, Brownsville & Mexico railroad, and she was appointed surgeon for the road.
